The wind farm above Brookhouse is certainly a cold, windy place, but thankfully the rain held off for the duration of the trial, but even so, our appreciations to the observers who stood out for the whole day, giving up a Saturday to assist Lancs County in the organisation of this trial. Obviously, the trial was very different to previous events at this location and proved a touch harder, and we appreciated everybody attending and hope that you all enjoyed the event. Every section was cleaned, though Ted Beaty only had three clean ascents of his ninth section, the rooted climb. These results have been compiled from the observers' boards as they have been received, but should you wish to query these results then please contact Mike Rapley on 07788 161929 in an evening.

Phil Scott has a Beta Rev 4, 300 for sale which is in very good conditions and he can be contacted on 01282 601336.
